WORK EXPERIENCE

Webtech.dev| Frontend Developer-Onsite Intern (Vehari, Pakistan)

(Mar 2025–Jun 2025)

Webtech.dev is a London-based company specializing in developing consumer-grade technology for startups and small businesses

- Developed responsive websites and web applications using HTML, CSS, JavaScript, and modern framework (e.g., Vue.js).
- Fetched and integrated data from APIs to build dynamic UI components.
- Translated Figma/Adobe XD designs into high-quality, pixel-perfect interfaces.
- Ensured cross-browser compatibility and fixed UI bugs.
- Used Bitbucket for version control and team collaboration.

Intelligent Food Assistance| FYP-CUI (Vehari, Pakistan)

(Sep 2024–Present)

- Developed a smart web-based food ordering platform using Laravel (MVC) and MySQL.
- Integrated a Laravel-based chatbot to help users place orders and navigate the website.
- Enabled real-time delivery tracking by integrating the Google Maps API.
- Built a responsive frontend using HTML, CSS, JS, and Bootstrap.
- Ensured data security through SQL injection protection.
- Coordinated cross-functional teams, tracked milestones, and ensured timely delivery of project goals.
- Managed stakeholder communication and documented product specifications and user stories.
